

# 2022 IMPACT | by the numbers

The goal of our **Car Seat Safety Education** program is to ensure that young families have a car seat that is in good condition and meets safety standards – as well as the knowledge, skills, and confidence to safely and properly install and use a car seat. Families receive a new car seat for completing an education session with one of the certified Child Passenger Safety Technicians on our staff, who perform a safety check and confirm that the seat is properly installed.
